

we listen to KLOVE(90.7 FM) here in Casper. So many people are helped by having this positive,uplifting Christian station available. Our city would not have a station of this caliber serving the same audience if KLOVE were off the air. I am concerned to hear that the LPFM stations might be given prioity over translator stations like KLOVE which exist to minister to people--not make money. Please allow our translator station to remain, serving people who really need to know God loves them! Thank you.
